Forest Ecology and Management, 51 (1992) 369–371
Elsevier Science Publishers B.V., Amsterdam

Author Index

Adams, M.B. and Eagar, C. (Radnor, PA, USA)
Impacts of acidic deposition on high-elevation spruce-fir forests: results from the Spruce-Fir Research Cooperative 195
Ainsworth, N. and Ashmore, M.R. (Ascot, UK)
Assessment of ozone effects on beech (*Fagus sylvatica*) by injection of a protectant chemical 129
Ashmore, M.R., *see* Ainsworth, N. and Ashmore, M.R.
see Davidson, S.R. et al.
Bäck, J. and Huttunen, S. (Oulu, Finland)
Effects of long-term exposure to simulated acid rain on conifer needle ultrastructure and hardening status 95
Bian, Y.-M. (Nanjing, China) and Yu, S.-W. (Shanghai, China)
Forest decline in Nanshan, China 53
Boxman, A.W., *see* van Dijk, H.F.G. et al.
Bricker, B.D., *see* Reader, R.J. and Bricker, B.D.
Brumme, R., *see* Eilers, G. et al.
Bussotti, F., Gellini, R., Ferretti, M., Cenni, E. (Florence, Italy), Pietrini, R. and Sbrilli, G. (Piombino, Italy)
Monitoring in 1989 of Mediterranean tree condition and nutritional status in southern Tuscany, Italy 81
Cenni, E., *see* Bussotti, F. et al.
Cregg, B.M., *see* Hennessey, T.C. et al.
Davidson, S.R., Ashmore, M.R. and Garretty, C. (Ascot, UK)
Effects of ozone and water deficit on the growth and physiology of *Fagus sylvatica* 187
Dougherty, P.M., *see* Hennessey, T.C. et al.
Eagar, C., *see* Adams, M.B. and Eagar, C.
Eilers, G., Brumme, R. (Göttingen, Germany) and Matzner, E. (Bayreuth, Germany)
Above-ground N-uptake from wet deposition by Norway spruce (*Picea abies* Karst.) ... 239
Fendick, E.A., *see* Richardson, C.J. et al.
Ferretti, M., *see* Bussotti, F. et al.
Fincher, J. (Ithaca, NY, USA)
Comparison of structural changes in red spruce (*Picea rubens* Sarg.) during cold hardening in mature trees and in seedlings used in pollutant exposure studies 105
Freer-Smith, P.H. (Farnham, UK)
Atmospheric pollution and forests 1
Frost, D.L., *see* Taylor, G. and Frost, D.L.
Garretty, C., *see* Davidson, S.R. et al.
Gellini, R., *see* Bussotti, F. et al.
Glatzel, G., *see* Katzensteiner, K. et al.
Helmisaari, H.-S. (Vantaa, Finland)
Nutrient retranslocation in three *Pinus sylvestris* stands 347

Hennessey, T.C., Wittwer, R.F. (Stillwater, OK, USA), Dougherty, P.M. (Athens, GA, USA) and Cregg, B.M. (Lincoln, NE, USA)
Annual variation in needle fall of a loblolly pine stand in relation to climate and stand density 329
Holland, M.R., *see* McLeod, A.R. et al.
Huebschmann, M.M., *see* Lynch, T.B. and Huebschmann, M.M.
Huttunen, S., *see* Bäck, J. and Huttunen, S.
Ilvesniemi, H. (Helsinki, Finland)
The combined effect of mineral nutrition and soluble aluminium on *Pinus sylvestris* and *Picea abies* seedlings 227
Innes, J.L. (Farnham, UK)
Forest condition and air pollution in the United Kingdom 17
Johnson, A.H., *see* Vann, D.R. et al.
Jorritsma, I.T.M., *see* Mohren, G.M.J. et al.
Katzensteiner, K., Glatzel, G. (Vienna, Austria) and Kazda, M. (Duesseldorf, Germany)
Nitrogen-induced nutritional imbalances—a contributing factor to Norway spruce decline in the Bohemian Forest (Austria) 29
Kazda, M., *see* Katzensteiner, K. et al.
Kress, L.W., *see* Richardson, C.J. et al.
Kropff, M.J., *see* Mohren, G.M.J. et al.
Lynch, T.B. and Huebschmann, M.M. (Stillwater, OK, USA)
Estimating diameter increment by DBH class with horizontal point sampling data 285
Matzner, E., *see* Eilers, G. et al.
McIlveen, W.D. (Toronto, Ont., Canada)
The application of early diagnostic tests for tree dieback in the Ontario situation 61
McLaughlin, S.B. (Oak Ridge, TN, USA) and Tjoelker, M.J. (Madison, WI, USA)
Growth and physiological changes in red spruce saplings associated with acidic deposition at high elevations in the southern Appalachians, USA 43
McLeod, A.R., Shaw, P.J.A. (Leatherhead, UK) and Holland, M.R. (Ascot, UK)
The Liphook Forest Fumigation Project: studies of sulphur dioxide and ozone effects on coniferous trees 121
Messina, M.G. (College Station, TX, USA)
Response of *Eucalyptus regnans* F. Muell. to thinning and urea fertilization in New Zealand 269
Miller, H.G., *see* Thomas, R.C. and Miller, H.G.
Mohren, G.M.J., Jorritsma, I.T.M., Vermetten, A.W.M., Kropff, M.J., Smeets, W.L.M. (Wageningen, Netherlands) and Tiktak, A. (Amsterdam, Netherlands)
Quantifying the direct effects of SO_2 and O_3 on forest growth 137
Moss, I.S., *see* Raper, S.M. et al.
Peterson, Jr., C.E., *see* Reams, G.A. et al.
Pietrini, R., *see* Bussotti, F. et al.
Raper, S.M., Steinbeck, K. (Athens, GA, USA), Moss, I.S. (Prince George, B.C., Canada) and Whitehead, D. (Rotorua, New Zealand)
Water use efficiency and transpiration of *Robinia, Liquidambar*, and *Platanus* sprouts in the southeastern USA 259
Reader, R.J. and Bricker, B.D. (Guelph, Ont., Canada)
Value of selectively cut deciduous forest for understory herb conservation: an experimental assessment 317
Reams, G.A. and Peterson, Jr., C.E. (Corvallis, OR, USA)
Evaluating changes in forest condition potentially related to acidic deposition: an example using red spruce 5

Richardson, C.J., Sasek, T.W., Fendick, E.A. (Durham, NC, USA) and Kress, L.W. (Research Triangle Park, NC, USA)
Ozone exposure–response relationships for photosynthesis in genetic strains of loblolly pine seedlings 163
Roelofs, J.G.M., *see* van Dijk, H.F.G. et al.
Sasek, T.W., *see* Richardson, C.J. et al.
Sbrilli, G., *see* Bussotti, F. et al.
Shaw, P.J.A., *see* McLeod, A.R. et al.
Smeets, W.L.M., *see* Mohren, G.M.J. et al.
Smith, K.G., *see* Wheeler, G.L. et al.
Starý, P., *see* Zumr, V. and Starý, P.
Steinbeck, K., *see* Raper, S.M. et al.
Strimbeck, G.R., *see* Vann, D.R. et al.
Szwagrzyk, J. (Cracow, Poland)
Small-scale spatial patterns of trees in a mixed *Pinus sylvestris–Fagus sylvatica* forest ... 301
Taylor, G. (Brighton, UK) and Frost, D.L. (Lancaster, UK)
Impact of gaseous air pollution on leaf growth of hybrid poplar 151
Tesche, M. (Dresden, Germany)
Immediate and long-term (memory) responses of *Picea abies* to a single growing season of SO_2-exposure or moderate drought 179
Thomas, R.C. and Miller, H.G. (Aberdeen, UK)
Impact of foliar and soil applications of nitrogen on the nutritional status of a young Sitka spruce plantation 217
Tiktak, A., *see* Mohren, G.M.J. et al.
Tjoelker, M.J., *see* McLaughlin, S.B. and Tjoelker, M.J.
Unsworth, M.H., *see* Wiltshire, J.J.J. et al.
Vann, D.R., Strimbeck, G.R. and Johnson, A.H. (Philadelphia, PA, USA)
Effects of ambient levels of airborne chemicals on freezing resistance of red spruce foliage 69
Vermetten, A.W.M., *see* Mohren, G.M.J. et al.
Van Dijk, H.F.G., Boxman, A.W. and Roelofs, J.G.M. (Nijmegen, Netherlands)
Effects of a decrease in atmospheric deposition of nitrogen and sulphur on the mineral balance and vitality of a Scots pine stand in the Netherlands 207
Wheeler, G.L., Williams, K.S. and Smith, K.G. (Fayetteville, AR, USA)
Role of periodical cicadas (Homoptera: Cicadidae: *Magicicada*) in forest nutrient cycles 339
Whitehead, D., *see* Raper, S.M. et al.
Williams, K.S., *see* Wheeler, G.L. et al.
Wiltshire, J.J.J., Wright, C.J. and Unsworth, M.H. (Loughborough, UK)
A new method for exposing mature trees to ozone episodes 115
Wittwer, R.F., *see* Hennessey, T.C. et al.
Wright, C.J., *see* Wiltshire, J.J.J. et al.
Yu, S.-W., *see* Bian, Y.-M. and Yu, S.-W.
Zumr, V. and Starý, P. (České Budějovice, Czechoslovakia)
The occurrence of the large pine weevil, *Hylobius abietis* (L.), in individual forest zones 251

Forest Ecology and Management, 51 (1992) 373–376
Elsevier Science Publishers B.V., Amsterdam

Subject Index

Acid rain
Effects of long-term exposure to simulated acid rain on conifer needle ultrastructure and hardening status 95
Acidic deposition
Evaluating changes in forest condition potentially related to acidic deposition: an example using red spruce 5
Growth and physiological changes in red spruce saplings associated with acidic deposition at high elevations in the southern Appalachians, USA 43
Impacts of acidic deposition on high-elevation spruce-fir forests: results from the Spruce-Fir Research Cooperative 195
Aluminium
The combined effect of mineral nutrition and soluble aluminium on *Pinus sylvestris* and *Picea abies* seedlings 227
Canopy removal
Value of selectively cut deciduous forest for understory herb conservation: an experimental assessment 317
Chemicals
Assessment of ozone effects on beech (*Fagus sylvatica*) by injection of a protectant chemical 129
Effects of ambient levels of airborne chemicals on freezing resistance of red spruce foliage 69
Cicadas
Role of periodical cicadas (Homoptera: Cicadidae: *Magicicada*) in forest nutrient cycles 339
Cold hardening
Comparison of structural changes in red spruce (*Picea rubens* Sarg.) during cold hardening in mature trees and in seedlings used in pollutant exposure studies 105
Conservation
Value of selectively cut deciduous forest for understory herb conservation: an experimental assessment 317
Diameter increment
Estimating diameter increment by DBH class with horizontal point sampling data 285
Dieback
The application of early diagnostic tests for tree dieback in the Ontario situation 61
Eucalyptus
Response of *Eucalyptus regnans* F. Muell. to thinning and urea fertilization in New Zealand 269
Fagus
Assessment of ozone effects on beech (*Fagus sylvatica*) by injection of a protectant chemical 129
Effects of ozone and water deficit on the growth and physiology of *Fagus sylvatica* 187
Small-scale spatial patterns of trees in a mixed *Pinus sylvestris–Fagus sylvatica* forest ... 301

Forest condition
Evaluating changes in forest condition potentially related to acidic deposition: an example using red spruce 5
Forest condition and air pollution in the United Kingdom 17
Monitoring in 1989 of Mediterranean tree condition and nutritional status in southern Tuscany, Italy 81
Forest decline
Forest decline in Nanshan, China 53
The application of early diagnostic tests for tree dieback in the Ontario situation 61
Forest growth
Quantifying the direct effects of SO_2 and O_3 on forest growth 137
Forest zones
The occurrence of the large pine weevil, *Hylobius abietis* (L.), in individual forest zones 251
Freezing resistance
Effects of ambient levels of airborne chemicals on freezing resistance of red spruce foliage 69
Herbs
Value of selectively cut deciduous forest for understory herb conservation: an experimental assessment 317
Horizontal point sampling
Estimating diameter increment by DBH class with horizontal point sampling data 285
Leaf growth
Impact of gaseous air pollution on leaf growth of hybrid poplar 151
Mature trees
A new method for exposing mature trees to ozone episodes 115
Needle fall
Annual variation in needle fall of a loblolly pine stand in relation to climate and stand density 329
Needles
Effects of long-term exposure to simulated acid rain on conifer needle ultrastructure and hardening status 95
Nitrogen
Above-ground N-uptake from wet deposition by Norway spruce (*Picea abies* Karst.) ... 239
Effects of a decrease in atmospheric deposition of nitrogen and sulphur on the mineral balance and vitality of a Scots pine stand in the Netherlands 207
Impact of foliar and soil applications of nitrogen on the nutritional status of a young Sitka spruce plantation 217
Nitrogen-induced nutritional imbalances—a contributing factor to Norway spruce decline in the Bohemian Forest (Austria) 29
Nutrients
Nutrient retranslocation in three *Pinus sylvestris* stands 347
Role of periodical cicadas (Homoptera: Cicadidae: *Magicicada*) in forest nutrient cycles 339
Nutrition
Impact of foliar and soil applications of nitrogen on the nutritional status of a young Sitka spruce plantation 217
Monitoring in 1989 of Mediterranean tree condition and nutritional status in southern Tuscany, Italy 81
Nitrogen-induced nutritional imbalances—a contributing factor to Norway spruce decline in the Bohemian Forest (Austria) 29

The combined effect of mineral nutrition and soluble aluminium on *Pinus sylvestris* and *Picea abies* seedlings 227
Ozone
A new method for exposing mature trees to ozone episodes 115
Assessment of ozone effects on beech (*Fagus sylvatica*) by injection of a protectant chemical 129
Effects of ozone and water deficit on the growth and physiology of *Fagus sylvatica* 187
Ozone exposure–response relationships for photosynthesis in genetic strains of loblolly pine seedlings 163
Quantifying the direct effects of SO_2 and O_3 on forest growth 137
The Liphook Forest Fumigation Project: studies of sulphur dioxide and ozone effects on coniferous trees 121
Photosynthesis
Ozone exposure–response relationships for photosynthesis in genetic strains of loblolly pine seedlings 163
Picea
Above-ground N-uptake from wet deposition by Norway spruce (*Picea abies* Karst.) ... 239
Comparison of structural changes in red spruce (*Picea rubens* Sarg.) during cold hardening in mature trees and in seedlings used in pollutant exposure studies 105
Effects of ambient levels of airborne chemicals on freezing resistance of red spruce foliage 69
Evaluating changes in forest condition potentially related to acidic deposition: an example using red spruce 5
Growth and physiological changes in red spruce saplings associated with acidic deposition at high elevations in the southern Appalachians, USA 43
Immediate and long-term (memory) responses of *Picea abies* to a single growing season of SO_2-exposure or moderate drought 179
Impact of foliar and soil applications of nitrogen on the nutritional status of a young Sitka spruce plantation 217
Impacts of acidic deposition on high-elevation spruce-fir forests: results from the Spruce-Fir Research Cooperative 195
Nitrogen-induced nutritional imbalances—a contributing factor to Norway spruce decline in the Bohemian Forest (Austria) 29
The combined effect of mineral nutrition and soluble aluminium on *Pinus sylvestris* and *Picea abies* seedlings 227
Pine weevil
The occurrence of the large pine weevil, *Hylobius abietis* (L.), in individual forest zones 251
Pinus
Annual variation in needle fall of a loblolly pine stand in relation to climate and stand density 329
Effects of a decrease in atmospheric deposition of nitrogen and sulphur on the mineral balance and vitality of a Scots pine stand in the Netherlands 207
Nutrient retranslocation in three *Pinus sylvestris* stands 347
Ozone exposure–response relationships for photosynthesis in genetic strains of loblolly pine seedlings 163
Small-scale spatial patterns of trees in a mixed *Pinus sylvestris–Fagus sylvatica* forest ... 301
The combined effect of mineral nutrition and soluble aluminium on *Pinus sylvestris* and *Picea abies* seedlings 227
Pollution
Comparison of structural changes in red spruce (*Picea rubens* Sarg.) during cold hardening in mature trees and in seedlings used in pollutant exposure studies 105

Forest condition and air pollution in the United Kingdom 17
Impact of gaseous air pollution on leaf growth of hybrid poplar 151
Monitoring in 1989 of Mediterranean tree condition and nutritional status in southern Tuscany, Italy 81
Poplar
Impact of gaseous air pollution on leaf growth of hybrid poplar 151
Retranslocation
Nutrient retranslocation in three *Pinus sylvestris* stands 347
Saplings
Growth and physiological changes in red spruce saplings associated with acidic deposition at high elevations in the southern Appalachians, USA 43
Seedlings
Ozone exposure–response relationships for photosynthesis in genetic strains of loblolly pine seedlings 163
Spatial patterns
Small-scale spatial patterns of trees in a mixed *Pinus sylvestris–Fagus sylvatica* forest ... 301
Stand density
Annual variation in needle fall of a loblolly pine stand in relation to climate and stand density 329
Sulphur
Effects of a decrease in atmospheric deposition of nitrogen and sulphur on the mineral balance and vitality of a Scots pine stand in the Netherlands 207
Sulphur dioxide
Immediate and long-term (memory) responses of *Picea abies* to a single growing season of SO_2-exposure or moderate drought 179
Quantifying the direct effects of SO_2 and O_3 on forest growth 137
The Liphook Forest Fumigation Project: studies of sulphur dioxide and ozone effects on coniferous trees 121
Thinning
Response of *Eucalyptus regnans* F. Muell. to thinning and urea fertilization in New Zealand 269
Transpiration
Water use efficiency and transpiration of *Robinia, Liquidambar,* and *Platanus* sprouts in the southeastern USA 259
Urea fertilization
Response of *Eucalyptus regnans* F. Muell. to thinning and urea fertilization in New Zealand 269
Water deficit
Effects of ozone and water deficit on the growth and physiology of *Fagus sylvatica* 187
Immediate and long-term (memory) responses of *Picea abies* to a single growing season of SO_2-exposure or moderate drought 179
Water use efficiency
Water use efficiency and transpiration of *Robinia, Liquidambar,* and *Platanus* sprouts in the southeastern USA 259
Wet deposition
Above-ground N-uptake from wet deposition by Norway spruce (*Picea abies* Karst.) ... 239
